## Dutchie Bag

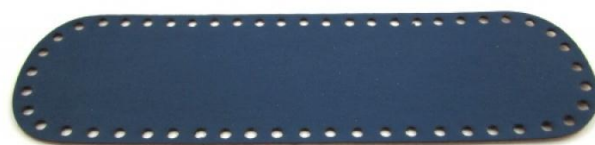

Haakpakket

Please read the instructions carefully before you start crocheting. We have included both US and UK abbreviations.

### Step 1: The base of the bag

Cut off one meter of blue Ribbon XL yarn and loop it loosely through the pre-cut holes of the bag base using the pendulum stitch. Finish with a tight little knot. This is the base for your work. Attach the blue yarn, and crochet around making a single crochet (US) = double crochet (UK) in every loop.

### Step 2: Colored bands in 3 colors

Crochet 6 rounds of single crochet (US) = Double crochet (UK) in blue and finish each row with a slip stitch. When finishing row 6 change to the color white. Again make 6 rounds of single crochet (US) = double crochet (UK), finishing each round with a slip stitch. When finishing row 6 change to the color red. Make another 6 rounds with the same stitch finishing each row with a slip stitch. After the 6th row (in red) make one round of slip stitches. Finish with a tight little knot.

### Step 3: the strap and finishing

Take some excess yarn of RibbonXL and sew the strap firmly onto both sides of the bag using a XL needle. Neaten the inside of the bag by threading any loose ends through the crochet "work". Attach the hearts to the top of your bag. Your bag is now ready to be used.
